

## CITY WILL PAY \$67,475 SHARE WITH CITIZENS

Annual Payment on Paving, Water  
Main, Sewer and Sidewalk In-  
stallments Authorized.

The adoption of a resolution by the city commissioners yesterday afternoon that was submitted by Commissioner Martin T. Rudgren, mayor pro tem, gives the mayor and the city clerk authority to shift approximately \$67,475 from the public benefit, waterworks and park funds to the special fund in order to take care of the city's share of the 1919 public improvement installments and interest on public improvement bonds.

Mayor Harry M. Schriver left the city yesterday morning and returned today. Commissioner Rudgren took his place yesterday while Deputy Clerk O. L. Johnson served as clerk of the meeting.

The shift in funds, which has been authorized, will mean taking \$23,989.36 for installments and \$14,432.78 for interest from three funds, according to the type of improvement, and placing the money in the special fund from which payments will be made to holders of the public improvement bonds.

These sums will cover 1919 installments and interest on the city's share of paving, water mains, sewers and sidewalks.

All public benefit improvements will be paid out of the public benefit fund, improvement affecting the waterworks department, such as water mains, will be paid out of the waterworks fund, and improvement affecting the public park system will be paid out of the park fund.

In Yearly Routine.

The payments are part of the yearly routine. Contractors performing public improvement work are tendered public improvement bonds in payment. These are marketed by the contractors in various ways. The bonds find their way into the hands of people living in

almost every section of the country.

They are payable in yearly installments covering a period of 10 years. Jan. 2 of each year is the delinquent date in the annual collection of improvement installments and interest assessed against properties for paving, water main, sewer and sidewalk improvements. However, a few days' grace are generally added before current interest at 5 per cent is added as penalty. This interest was added on Jan. 15 in the present collection, which is believed by Commissioner Rudgren will be continued until March 15, when the city's books will be closed and the outstanding accounts turned over to the county treasurer for collection. In case payment is then deferred the accounts will be sold by the county treasurer. This is generally being done either the first or second Tuesday in June.

Total collections from property holders and the city this year are expected to reach approximately \$200,000.

## MISS DAISIE COX OF ALPHA IS DEAD

(Special to The Argus.)  
Alpha, Ill., Feb. 10.—Miss Daisie Cox, second daughter of J. F. Cox, passed away at her home Sunday evening at 9 o'clock. Death came very unexpectedly and was caused by pneumonia. She had been sick about a week.

## Today's Birthdays

John F. Kramer, first national prohibition commissioner for the United States, born in Richmond county, Ohio, 51 years ago today.

Sir Robert Falconer, president of the University of Toronto, born at Charlottetown, P. E. I., 53 years ago today.

Charles C. Kearns, representative in congress of the Sixth Ohio district, born at Tonica, Ill., 51 years ago today.

William G. (Billy) Evans, well known American league baseball umpire, born in Chicago, 35 years ago today.

## CHILDREN ARE ELKS' GUESTS

Boy Scouts and Youngsters of  
Homes and Other Organizations  
to Witness Minstrel Show.

Rock Island kiddies will be guests of Rock Island lodge, 900, Elks, at the annual minstrel show to be presented at the Illinois theatre three nights commencing tomorrow. Gallery of the theatre will be open each evening to the young guests of the lodge.

Boy Scouts will be entertained at the opening show. Scout Executive David A. Bergquist yesterday sent out call to all Scouts in Rock Island to appear in uniform, although this will not be necessary for admittance.

Thursday night children from the West End Settlement, Bethany Home and carrier boys for local newspapers will witness the show. Through courtesy of the Tri-City Railway company special cars will be provided for the West End and Bethany Home youngsters and there won't be a conductor on either car.

On the final night of the show the gallery will be thrown open to every child in the city under 12 years of age. Scouts are to be detailed Thursday and Friday night to assist in care of the youngsters who attend the show.

Mayor Issues Bids.  
Mayor Harry M. Schriver this morning on behalf of the Elks extended invitations to the various organizations and the children of the city to attend the minstrel as guests of the lodge.

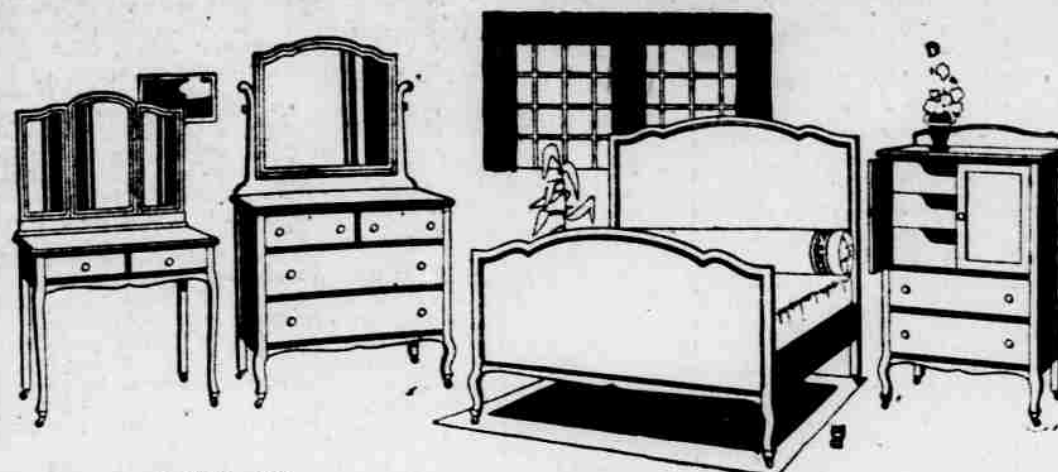

Seat reservations began yesterday and fulfilled predictions that the theatre would be sold out for all three performances before the curtain went up on the first night. There were some good seats available this morning, however, for the final shows.

Pure, delicious and satisfying is the verdict about "Abraham's Pecan Roll," expressed by new admirers daily.

## Woman Not Worried Over Food Shortage

"I have lived on toast and water for over six months and have been scarcely able to eat anything for the past year. I began suffering from stomach trouble and bloating five years ago. A friend recommended May's Wonderful Remedy and since taking six doses I feel I am entirely restored; even cabbage does not hurt me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Bengtson's drug store, Davenport, Rock Island and Moline. (Adv.)

## Tartar on Teeth Shows You Leave the Film

All Statements Approved by High Dental Authorities

## Free

A 10-Day Tube of Pepsodent to show you its effects. See coupon.

## Remove the Film

Film is the basis of tartar. It is the source of discolored teeth and decay.

In brushing teeth you leave a slimy film. You can feel it with your tongue. It clings to teeth, enters crevices and stays. Your tooth paste cannot dissolve it. Most tooth troubles are now traced to that clinging film.

That film is what discolors—not the teeth. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So the one great object in cleaning teeth should be to end that film.

Dental science, after years of searching has found a way to do that. For home use the way is now embodied in a dentifrice called Pepsodent.

The results are known. Convincing, clinical and laboratory tests have proved them beyond question. Leading dentists everywhere now advocate its use.

## A 10-Day Test Supplied

We now send a 10-Day Tube to anyone who asks. Thus we are starting countless people toward cleaner, safer teeth.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object is to dissolve the film, then to day by day combat it.

The way seems simple, but pepsin must be activated. The usual method is an acid harmful to the teeth. It is the invention of a harmless activating method which makes pepsin possible. That, with other Pepsodent ingredients, is doing now what was never done before.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Read the book we send you. Learn the reason for these things. Then judge for yourself if you want your teeth kept in that way always. Cut out the coupon now.

See how teeth glisten when the film is gone. It is film that makes teeth look dirty. It is film that is the source of most tooth troubles.
